

WEBHOSTING / BLOG

You might have many reasons for publishing on the web, and some of our services/solutions might be of your interest.

WE CAN OFFER THESE SERVICES/SOLUTIONS FOR UIB EMPLOYEES AND STUDENTS:

- **Wordpress (Blog)**
 - o You get your own Wordpress instance, often called a “blog”, where you can easily publish posts and pages on the web.
- **Wiki**
 - o You get your own Mediawiki instance where you can write in articles alone or with others for web publishing. Similar to Wikipedia. The Wiki can be open or closed.
- **HTML webpages (keywords: html editing, CSS, JavaScript)**
 - o You can have an area / folder on a web server where you can publish your html files. This server provides three main areas: FOLK, ORG AND COURSE. You need to know how to make your own HTML pages, and knowing a bit about CSS and JavaScript might be useful. Dynamic content made with PHP or other is not allowed. Check out the LAMP solution if this is needed.
- **LAMP (also called «Self-managed Solution»)**
 - o LAMP = Linux, Apache, MySQL and PHP: This service/solution is for advanced users. We create a folder and a MySQL database for you. The rest of the installations are done by you. We have requirements regarding security and spam control of the installed solution.

Would you like to «blog» about your research and/or teaching?

Do you have information that you want to share with others on the web?

Would like to profile yourself and your research group on the web?

Are you a member of a student group that would like to share web information to other students?

HOW TO GET A WEB HOSTING SOLUTION OR BLOG?

We need you to create an issue at <https://bs.uib.no>, where you have to tell us:

- A short name for you website, and which solution you like to have:
Wordpress, Wiki, HTML or LAMP

The website will have the web address under the University of Bergen domain name: name.something.uib.no
Information about these services/solutions: <http://webhotel.uib.no>

Regards,

IT department – University of Bergen

Official UiB information should be published under www.uib.no. The webhosting solutions described here is to be used for information that is not clearly to be published under UiB's official web profile.
